TEL NO: 020 7735 6060 FAX NO: 020 7735 0909

EMAIL: apl@adamsandpalmer.co.uk

WW plastering and we Adams and Palmer have been working together on a large number of projects over the past seven to eight years. Works have ranged from award winning restoration work (riba 2005) to new build and fit out.

Specialising in all forms of Plastering WWP has become our default contractor for this element of works. My own experience with them as contractors has always been positive ,working together on grade two star, two star listed buildings including five star hotels ,private residences in Westminster, Chelsea and Kensington .Along with conventional plastering, rendering works to interiors and exteriors of properties within the Greater London area.

As a main contractor I have found them to be contractors who can resource adequately, accurately and competitively tender for work and apply themselves to programmes/timescales.

My experience has also been that WWP bring excellent experience and a deep knowledge of their trade to site. Positively they also install a code of conduct with their employees resulting in good house keeping, well mannered operatives with a sustained approach to achieving and delivering quality workmanship.

I would happily recommend WW Plastering for all aspects of the Traditional plasterer's trade as listed below.

- Lathe and lime plaster works
- External rendering including ashular methods.
- Internal gypsum plaster skim and bonding coat work all surfaces.
- Repair patching and making good.
- Floor screeding
- Specification and on site liaison with Main contractors, clients ,architects and surveyors

Paul Layzell

Contracts Director.
